Mission

WE ARE YOUR STRATEGIC PARTNER IN SOLVING PROBLEMS

We are a trusted partner for Catholic organizations, offering comprehensive solutions designed to match their unique needs.

Our mission and long history are rooted in a deep understanding of the Church. Driven by shared values and a commitment to providing expert support, we address the various operational and strategic challenges faced by religious organizations.

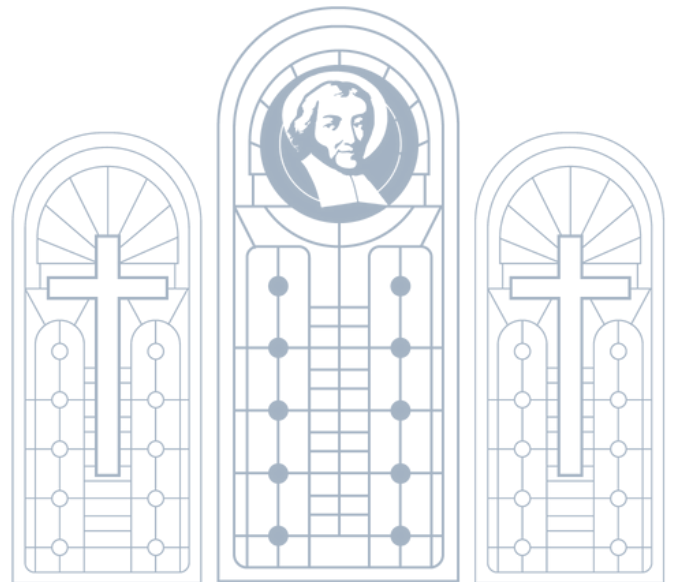

Our purpose is to be the first call for help, offering trusted, mission-centered solutions across health benefits, retirement plans, risk management, and consulting.

History

Founded in 1960 by Brother Joel Damian, FSC, Christian Brothers Services (CBS) began as a mutual cooperative purchasing group for Chicago area high schools run by the De La Salle Christian Brothers. Under Brother Damian's leadership, the Brothers realized they could purchase broader coverage at significantly reduced prices by pooling the financial resources and risk exposures of the schools, providing greater financial strength to both the congregation and the individual institutions.

Over time, Christian Brothers Services has grown to fund a variety of programs for Catholic congregations, organizations, schools, and dioceses in the United States. CBS continues to pool resources for such organizations, resulting in increased purchasing power, superior coverage at reduced rates, all while avoiding the large cost fluctuations most other purchasers face. This approach allows Christian Brothers Services to offer member organizations more flexibility and greater benefits choices.

Health Solutions

Finding affordable health and well-being benefits can be a challenge for religious organizations that do not have the resources of giant corporations. Christian Brothers Services works with all sizes of Catholic organizations, including schools, parishes, dioceses, and more, delivering comprehensive, cost-effective benefit plans that meet the unique needs of their lay employees and religious. We work with best-in-class networks and vendor partners to provide the highest quality benefits to ensure optimal health and well-being, allowing our members to focus on their mission.

Health Solutions

→ Medical

We offer comprehensive benefits, including preventive care, at a variety of deductible and copay levels. Our care management programs ensure employees receive quality care while reducing costs for organizations.

Prescription Drug

All Christian Brothers Services medical plans include prescription drug coverage with broad access to retail pharmacies nationwide and mail-order pharmacies with long-term home delivery and clinical management programs for cost savings and convenience.

Flexible Spending Account (FSA)

Employers can also sponsor a FSA program with any of our medical plans so employees can set aside pre-tax earnings for specific healthcare expenses.

→ Dental and Vision

Our dental plan provides comprehensive coverage — including preventive, basic, and major dental care — as well as flexibility in choosing the dental provider. Orthodontia coverage is optional to allow organizations to balance costs and coverage for their specific groups. The vision plan helps cover the costs of exams, lenses, and frames and allows members to choose their providers.

→ Life

Group life benefits, including accidental death and dismemberment benefits, are available for eligible employees. Coverage options include multiples of salary (up to \$150,000) or fixed amounts per employee.

→ Disability

Disability benefits, both short-term and long-term, provide protection for employees in the event of disability. Benefits are based on a percentage of the employee's salary.

Health Solutions

→ Your Partner in Health Solutions

Meeting the unique needs of religious organizations for decades, the Christian Brothers Employee Benefit Trust knows how to deliver healthcare programs designed to keep your employees healthy and your administration happy. We are here to be your strategic partner in healthcare solutions. We work with all types and sizes of customers, including schools and universities, parishes, dioceses, volunteer organizations, charitable organizations, thrift stores, nursing homes, and more.

→ Employee Benefit Trust (EBT)

Health Solutions

Religious Medical Trust (RMT)

Since 1967, the Religious Medical Trust (RMT) has been offering comprehensive medical coverage, using best-in-class networks and vendor partners, to support religious institutes throughout the United States and abroad.

The RMT has a number of programs designed to meet the varied needs of the religious. We work with you to manage costs while optimizing your healthcare options including Medicare coverage, providing benefits and services designed to deliver peace of mind and ease of use.

How it works:

- Organizations choose among plan options to allow them to tailor coverage and cost
- Coverage is for the entire group for the entire year.
- The trust pays providers directly and consolidates any costs due from the organization in a monthly bill for the organizations.

Retirement Solutions

When employees devote their careers to furthering your organization's mission, you want to give something back when it comes time for them to retire. Christian Brothers Services offers a wide range of designated church retirement plans to help employees follow retirement planning best practices and meet their retirement goals. Our retirement experts offer guidance on creating, managing, and optimizing retirement plans to ensure employees feel cared for.

Retirement Solutions

Defined Contribution Plans

Christian Brothers Retirement Solutions offers 403(b) and 401(k) retirement savings plans specifically designed for Catholic Church employers. These plans allow employees to save for retirement with pre-tax money, reducing their current tax burden. Alternatively, the plans allow employees to make Roth after-tax contributions. These contributions are made with after-tax dollars but they grow tax-free and can be withdrawn tax- and penalty-free, if certain conditions are met.

What sets our plans apart:

Instead of hidden fees buried in investment expenses, we charge clear, direct fees ("hard dollars") for our administrative services. This approach gives you a better understanding of the true cost of your plan and can result in lower overall expenses.

Employers have the flexibility to contribute through matching or discretionary contributions, although contributions are not mandatory (except in a safe-harbor plan), and they can customize eligibility and vesting options. (Employee contributions are always fully vested, while employer contributions are subject to a vesting schedule.)

Employees of member organizations can choose from a variety of investment options, including Catholic Socially Screened Funds, that are focused on social responsibility.

Our defined contribution plans can be delivered via a streamlined, bundled approach that removes any administrative burdens from organizations or via an unbundled option that provides flexibility for larger organizations.

A Turnkey Approach

Our turnkey approach ensures that all administrative services are seamlessly integrated. This comprehensive package includes daily valued record-keeping, online access for both employers and employees, online quarterly benefit statements, communication materials, on-site meetings, compliance with all legal requirements, and access to Fidelity's investment professionals. With this plan, some employers may be subject to non-discrimination testing. Christian Brothers Services can advise on how to avoid testing or can complete the required testing for an additional fee.

Retirement Solutions

→ Defined Benefit Plan

Our defined benefit plan is a great complement to our defined contribution plans and offers employees a balanced and secure financial future. Delivering the security and stability of a traditional pension, this plan ensures employees' financial futures are well-protected without straining employers' budgets.

Advantages of the CBERP

The Christian Brothers Employee Retirement Plan (CBERP) delivers reliable income to employees from retirement through the remainder of their lives. Employer-funded benefits are calculated using a formula that considers several factors. There are several benefits to the CBERP for both employers and their employees, including:

- **Economies of scale:** The CBERP has covered more than 30,000 members since 1964, so organizations benefit from the cost efficiencies of a large plan.
- **Efficient asset management:** With over \$1 billion in assets, the CBERP enjoys lower administrative and investment expenses than a single-employer plan. The plan's scale also allows for alternative investment opportunities.
- **ERISA exemption:** As a designated church plan, the CBERP is exempt from the stringent regulations of the Employee Retirement Income Security Act, while still mirroring beneficial provisions and reducing administrative burdens.
- **Flexible contribution levels:** The CBERP offers many contribution levels, allowing employers to choose contributions that meet their budget. They can also adjust these levels over time.
- **Expert administration:** Our team handles the plan administration, lifting the burden from employers with countless other responsibilities.
- **Employee resources:** The Christian Brothers Services website includes a retirement calculator, enabling members to perform their own projections and plan for retirement with confidence.

Merging a Defined Benefit Plan with the CBERP

Though defined benefit plans are excellent for providing long-term security, the cost and complexity of administering these plans is daunting. Many Catholic employers choose to merge their current or frozen defined benefit plan with the CBERP, removing the burden from overworked teams and unlocking the potential for greater cost savings.

If you are considering merging your active or frozen defined benefit plan with the CBERP, our team will conduct a comprehensive analysis to determine if a merger is the right choice for your organization. If a merger is suitable, we will guide you through the transition and provide on-site support to communicate changes to your employees.

→ Risk Control Programs

Though organizations cannot eliminate workplace risks, they can reduce them. Members of our Risk Pooling Trust have access to free risk control programs that were built to help organizations mitigate property losses and liability claims. Our training programs are customizable and resources can be effortlessly shared with employees to promote safe workplace practices.

On-Demand Online Training Modules

Members can access a library of more than 300 free online training modules that aim to educate employees on ways to reduce accidents and losses. These comprehensive modules cover risk management, safety, child abuse prevention, and human resources. Each module ends with a brief quiz that reinforces key points, and managers can easily track progress and quiz results through our user-friendly platform. Our web-based training provides unmatched convenience, allowing employees to learn anytime, anywhere, and participants can download a certificate of achievement for their records upon completion.

Cybersecurity Training and Resources

In response to the growing complexity of cyberattacks, we now offer targeted online cyber training modules along with a Cyber Security Toolkit. These resources can help managers, supervisors, and employees with the skills needed to defend themselves and their organization against cybersecurity threats like ransomware attacks and phishing scams.

Real-Time Virtual Training

In addition to offering on-demand training modules, the advisors at Christian Brothers Services frequently host live virtual training programs. These sessions cover a wide range of topics and are offered at no cost to members.

Webinars

Christian Brothers Risk Solutions offers free on-demand and live webinars led by experts in their areas of expertise. Topics include property protection, liability mitigation, fleet safety, child abuse prevention, and workers' compensation risk reduction strategies. Our webinars are interactive and provide valuable risk-reduction strategies and compliance insights.

Newsletters and Toolkits

Our Risk Factor newsletter provides members with key insights and downloadable resources on various risk management topics. The resource section in the members section of our website includes toolkits covering areas like driver monitoring, slip and fall prevention, safety communication, and cybersecurity.

Social Security Reporting: Religious organizations participating in Social Security must report "wages" for their members, paying both the employee and employer portions of FICA tax. Reporting is required regularly, with penalties for late submissions. Consulting Solutions offers a streamlined process to help institutes meet these requirements, enrolling members and paying FICA for them, so they get Medicare/Medicaid when they retire. Our services include:

- Filing W-2 information with the government on behalf of the institute
- Preparing W-2 and 941 forms for institute submission
- Calculating, managing, and processing required tax payments

OUR IMPACT:

“

The Sisters of St. Joseph of Lyon-Maine have always been very pleased with the expertise and experience you've provided us over the last 30 years. Like so many religious groups, we have become fewer and have needed to respond differently to our reality. Because of the positive working relationship with you all these years, we made a decision nearly two years ago to outsource most of the work still needing to be done in our finance-business office. You have been providing that service. It is one of the best decisions leadership has ever made!
