Cigna Directory

Selecting a health care professional is important, and with the Cigna directory, it's easy. With a growing nationwide PPO network of nearly 800,000 health care professionals and 6,000 facilities, Cigna offers a range of quality choices to help you stay healthy.
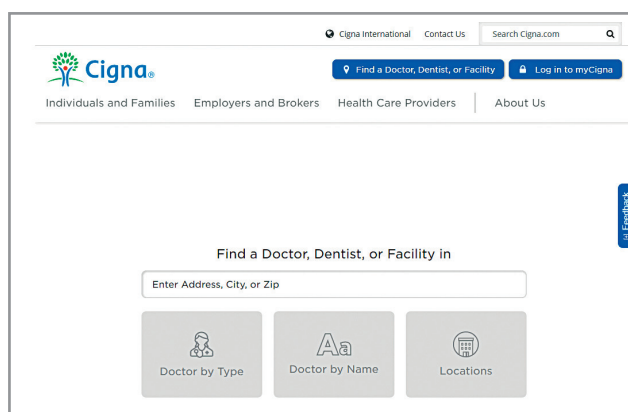

The Cigna directory is an online search tool providing up-to-date listings of participating physicians. With the easy-to-use format, you can search online by specifics, such as hospital affiliation, specialty, gender, languages and distance. The information also includes a detailed map of the physician's location(s), as well as medical schools attended. The Cigna directory helps you make an informed choice and gives you easy access to numerous health care professionals anywhere you have Internet access.

Be sure to verify your search results! The Cigna directory is a convenience we're pleased to provide to our members. Please remember that directory information is for reference only–always verify the provider's address, phone, specialty and any other information before making an appointment.
