

# State Benchmark = CA, CO, UT 2026 Copay Assistance Benefit Drug List

Effective July 1, 2026

The specialty medications included in the copay assistance benefit drug list are specific to your plan's prescription drug benefit and subject to change at any time. Prescription drug benefit plan terms will always take precedence. Medications with prior authorization criteria must be approved in advance by the plan and follow applicable laws and/or regulations. The specialty medications included on this list will have a 30 percent coinsurance, which may be subject to change. When coinsurance applies for these medications is determined by your plan benefit design. By completing the manufacturer copay assistance program's enrollment process and consenting to SaveOnSP monitoring your pharmacy account, **your final cost will be reduced**. Specialty medications will be filled through your approved specialty pharmacy.

Please call **800-683-1074** to participate. Once you've completed the manufacturer copay assistance program's enrollment process and consented to SaveOnSP monitoring your pharmacy account, your responsibility will be reduced.
